Classes Pre School & Pre Primary

September - October 2018

“Learning is the Process whereby Knowledge is created through The Transformation of Experience.”

Dear Parent

We, here at Mount Abu School, are working hard every day to give our kids a top of the line education. It is with great pleasure and humility that we look forward to serving you better. We are sure to have a spectacular time when each one of us unites around common goals that bind us together with a shared vision

Breaking away from industrial school mindset where individual potentials are often mapped with scores, we try to identify the individual's strengths for constructive learning. An integrated approach is yet another endeavour of Mount Abu Public School which allows the Mapians to explore, gather, process and refine information in a purposeful and relevant learning.

The school nurtures the ideals of self-awareness, self-respect and set of values and beliefs to help them contribute for the welfare of the society.

Few gentle reminders:

- Ensure a smart turn out of your ward in winter uniform as it helps to build the confidence of the child.
- Ensure English conversation at home to enhance child's spoken skills.
- Healthy diet is a major concern at school, thus send one seasonal fruit everyday for the fruit break.
- Check almanac, day's brief mail, Snap app, H.W message daily as it is the best medium for the school to communicate with the parents.
- Log on to the school website www.mountabuschool.com for latest information and happenings in the school.
- Help your child in preparing well for weekly observations.

So, we are back again with the latest updates of our activities that took place in the month of September – October 2018.

Green Colour Day

A refreshing and revitalizing shade, Greenery is symbolic of new beginnings. Green Day was celebrated with great zeal and enthusiasm in the Preschool. The students and teachers came to school dressed in pretty green attires and spread the message of being eco friendly.

The school garden was chosen for the beautiful green themed set up to acquaint kids with green colour and all the green objects from a child's immediate surroundings were placed.

Students were taught the identification and recognition of green fruits, vegetables, leaves and trees. Many activities and games pertaining to green colour were organised for the kids. Children brought green snacks and eatables in their lunch boxes. The classrooms were beautifully decorated with flash cards, balloons & green objects. Students came dressed up as live models of green objects such as raw mango, frog, grapes, capsicum and recited related rhymes. The teacher also explained the importance of medicinal plants that we get from the green world. Acts of green conveyed the message that we should not cut trees and plant more and more trees. Students were introduced to various shades of green such as aqua green, olive green, bottle green and parrot green. Quiz on green objects, games on green colour were organized throughout the day.

The children were excited to see how letters were stamped, sorted and put into different pigeon holes as per the area they had to be delivered. The children were taken around to see various counters catering to the public service. It was a wonderful learning experience for the children to see how a post office functions as this means of communication is becoming ancient. The children saw a letter box – they posted small letters in it. They were happy to meet the postman and saw his shelf with loads of letters stacked for distribution
